2 of 2 review helpful Bugtastick By SneakyBurrito Its really hard to get me to invest 30 00 in a book when I do its because I consider that book to be something extra special I spent months at the book store reading little bits of this book and comparing it to other books on the subject Finally I decided I couldn t live without this one and I bought it

and I am so glad I did One of my original objectio A guide to identifying and understanding the lifecycles and preferred habitats of Texas insects mites snails slugs nematodes and other bugs in order to organically control them Praise for Texas Bug Book Definitive This book is a must have for any organic library Texas Organic News Overall this book is probably the best of its kind Given the excellent photography and affordability it is definitely worth the purchase Who
