able to make you love reading but dictionary of symbols Dictionary of Symbols (Norton Paperback):

11 of 11 review helpful Useful but Organizationally Flawed By Joel This is a rich sourcebook of information about graphic symbols from around the world The text is detailed and covers the subject in depth Several articles at the beginning of the book discuss the various uses of these signs and symbols around the world The book s key failure IMHO is that the author uses an indexing system that is hard to follow For There is nothing quite like this well researched book Library Journal From early cave drawings to modern corporate logos graphic symbols have been used to convey meanings both tangible and abstract In this unique dictionary Carl G Liungman puts approximately 2 500 Western graphic symbols at your fingertips Each entry includes the sign s history its meanings and the systems in which it is used Symbols are cross referenced to o From Library Journal Never before published in the United States this authoritative four part history dictionary and index of non iconic symbols is a revision of the author s Symboler published in Sweden in 1974 Part 1 concisely traces the historical devel
