2 of 2 review helpful I ordered the Kindle version but would recommend the paper version instead By composer This is THE book of plant propagation for the home gardener Although I ve planted many seeds and divided many plants I ve not done many leaf or stem cuttings Druse clear guides to success have been very helpful I m currently propagating some echeveria and rex begonias based on his recommendations and dreaming o For people who love gardens

propagation is gardening itself the practice of growing whatever you want whenever you want Whether you crave healthy vigorous plants wish to grow new ones to share with friends or hope to produce scores of them to fill your own beds and borders for free Making More Plants will help fulfill your most vivid garden dreams Ken Druse one of America s foremost gardening authorities an award winning photographer and the autho com Generally a gardening book that teaches practical skills is designed to look more like a plain textbook than an artful coffee table decoration but Ken Druse The Natural Garden The Collector s Garden has changed that with his gorgeous bo
