1 of 1 review helpful Great reference material By Wesley Hayden My copy is now 17 years old and I still refer to it as the main authority when deciding on colour schemes and as a guide to cultivation specifics Well worth adding to the

collection The 15000 plants featured in this encyclopedia have been selected by consultants from the UK North America and Europe They include not only tried and tested garden favourites but also a selection of unusual species and cultivars The plants are arranged alphabetically by botanical name Common names are cross referenced throughout enabling plants to be found easily even if the botanical name is unfamiliar Synonyms are similaly cross referenced The introduction des
