1 of 1 review helpful herb identifiyer By stephenstefl This book is like all the other books I ve read on medicinal herbs

It tells you about the plant even shows pictures of the plant but very few of the pictures look like what s in my flower pot The book doesn't do me much good out in the field 1 of 1 review helpful Great book to keep on your shelf By Karen Smith This volume provides an up to date guide to all the most popular herbs and their uses and also a practical manual to home cultivation It includes over 400 colour photographs with pictures of every herb for easy identification
