23 of 23 review helpful Super in Some Sections Disappointing in Others By sonnet103 This is the first houseplant book I ve purchased It looked like a great beginner guide It does provide good information about propagation proper

care placement and most importantly for me anyway troubleshooting I had also hoped that it would help me identify some of the plants that I have in my home I was able to identify many of t The complete guide to making the most out of your houseplants from choosing the right plants to finding the right settings in your home and much more
