little series I'm a painter who focuses on mythology and history. Since it's so overdone, I don't necessarily like to do the same old Greek, Roman, and Norse. So having a quick reference where I can get some ideas from other areas of the world is a fantastic tool to have. It's still pretty vague, but with three beautiful volumes exploring the mythologies of the world's ancient civilizations in one classic boxed set with over 1900 alphabetical entries describing the central mythical figures and their importance. About the Author: Arthur Cotterell is the author of the best-selling Dictionary of World Mythology. Brian Molyneaux, PhD, specializes in the human use of the landscape, art, and ideology. David M. Jones, PhD, has written many articles on Mesoamerican and South American.
