0 of 0 review helpful Book is okay nothing extraordinary By J Albieri There are some entries that i had not heard of

but for the most part nothing new However for a reader who is not into mythology and folklore as I am this book should be an interesting read Way pricey though for a digital book though 0 of 0 review helpful Returned item Not worth 40 for a soft cover Fairies have been revered and feared sometimes simultaneously throughout recorded history This encyclopedia of concise entries from the A senee ki waku of northeastern North America to the Zips of Central America and Mexico includes more than 2 500 individual beings and species of fairy and nature spirits from a wide range of mythologies and religions from all over the globe From School Library Journal Gr 9 Up More than 2 500 beings and species of the fairy ilk are described in this comprehensive tome The entries are organized alphabetically by entry name in bold type The length of entries varies from a few sentences to several pa
