0 of 0 review helpful Need ecological information By Linda Kerth After reading a few pages of descriptions they all started sounding alike I would have appreciated a little more in depth information Are plants edible Are they poisonous say to chickens Do they provide a wild life food or shelter source Are the seeds fruits nuts etc of any use to humans or animals Some are listed as poisonous but none give At last a perennial encyclopedia that gardeners can

really use not just look at It presents 161 major perennial entries plus hundreds of species and cultivars all described in detail in the encyclopedia section with complete growing and landscaping information Charts and tables provide current information on every aspect of perennial gardening all chemical free Photos and illustrations many in color com Perennials are the most challenging and rewarding of all garden plants and most gardeners need all the help they can get to grow them well Perennials emerge from the ground in early spring grow to full height bloom bear fruit and then disappear with
