0 of 0 review helpful My wife loves it Can t put it down By Financial Expert My wife loves it Can t put it down 19 of 19 review helpful A wealth of information By cyclista Although I ve been a shade gardener for many years this book

contains many shade perennials that I had never heard of I liked that almost all the pictures appear to be of mature specimens so y Finding an array of unique and diverse plants for shade might seem like a daunting task with limited options available to the gardener Shade perennial expert W George Schmid dispels this perception in his new encyclopedia This companionable reference provides information on more than 7000 species and cultivars in 184 genera from Acanthus to Woodwardia some new to horticulture others unjustly overlooked but all beautifully suited to the shade garden Schmid has From Booklist The lively content of this authoritative compendium offers up much more than a dry encyclopedic gathering of information Instead Schmid reveals new ways of looking at gardening in shady conditions
