0 of 0 review helpful Incomplete By DavidA I have a large lot and was very interested in planting several varieties of hollies so purchased this book It must be a regional book because many of the hollies available here in Texas weren t in this book In addition the sequencing logic of the book is hard to follow 0 of 1 review helpful I couldn t believe this

deal By David Duc Richly enshrouded in legend and superstition valued for a wide variety of uses and prized by gardeners hollies have always been part of our lives and gardens Now they are enjoying a peak of popularity as gardeners wake up to their huge diversity of form foliage and fruit marvel at their adaptability and appreciate the wide variety of situations in which they can be used There is a holly for every temperate region of the world and Christopher Bailes celebrates A much needed book for gardeners This new book both far reaching and scholarly brings the rich and varied skeins of the genus Ilex into enviable order Plantsman For greater det
