1 of 1 review helpful Exactly what I needed By C Most I am not a landscape designer I am a very methodical panning oriented person who is interested in redesigning the yard This book is fabulous and exactly what I needed It does detail the principles of design Visual balance of leaves the importance of height for single story structures etc but as the book

says that all starts somewhere in the middle Th Designing a garden is a complex task Where do you start What kind of skills do you need What are the logical steps in creating a design How do you communicate your ideas to a client and how do you accommodate a client rsquo s requests while maintaining the integrity of the project The answers to these questions and many more can all be found in Understanding Garden Design Most books on garden design focus on only one or a few aspects of garden From Booklist A former interior designer who embarked on a second career in landscape planning Nagel bemoaned the dearth of resource material necessary for her new endeavor Knowing that nature abhors just such a
