1 of 1 review helpful Inspiring and practical By Roses and gardens Besides being a glimpse into the author s appealing way of thinking about roses this work includes information I haven t read elsewhere For instance the section on planting standard roses advises the reader to place a wooden support stake into a short length of drain pipe The drain pipe being more durable will allow replacing the old stake once it de This is a landmark work by the world rsquo s foremost authority on roses Both a definitive history and an essential manual for all growers and lovers of roses it contains a wealth of expert information on buying propagating feeding and pruning old roses shrub roses and climbers

It is superbly illustrated with more than 600 color photos ldquo A massively and magnificently illustrated encyclopedic work rdquo Daily Telegraph ldquo This comprehensive work covers this special area of flower gardening more completely than any other book on the market rdquo Library
