Histories Series):

Landscape architecture and garden making have witnessed huge changes during the twentieth century and the impact of these will continue to be discussed and interpreted in the twenty first New materials and responses to different social conditions along with new attitudes to how gardens are perceived and interpreted and above all the relationship of built work to the larger landscape of territory and society all have challenged long held practices of garden ldquo An exciting and unusual approach to a perhaps undervalued aspect of history that usefully fills a niche area of research and study A Cultural History of Gardens provides an important and fascinating insight through thought provo
