in Science and Myth:

1 of 1 review helpful Great book on our ancestors By G2 Great book on our ancestors going back to the big bang Well written and very interesting Want to know where we really come from and how we got to be who we are today This is as up to date as any book can be What happened to the Neanderthal Where d the Cro Mangon come from Here it is 0 of 0 review helpful Four Stars What a fine long pedigree you have given the human race ndash Charles Darwin to Charles Lyell 1863 How is the Royal Family descended from fish How distantly are we related to dinosaurs How much of your DNA came from Neanderthals How are the builders of Stonehenge connected to great grandpa According to science life first appeared on Earth about 3 500 million years ago Every living thing is descended from that first spark including all of us But if we tra this book charts not only the extraordinary story of our ancient ancestors but also our 40000 year old long quest to discover our roots from ancient origin myths of world shaping mammoths and great floods down to the scientific discovery of our descent fr
