3 of 3 review helpful Excellent resource for a cacti enthusiast By Bobby Z I have recently renewed a hobby of cacti collecxting and am happy to have this excellent resource that is available economicaaly and with free shipping with Prime I am astonished on the travels of Ken Preston Mafham I wish bibliographic information on this broadly trained botanist entomologist ecologist was available to lrearn more about him I A visual reference to 500 cacti The cactus family includes more than 2 500 species of cacti succulents caudiciforms and euphorbs Native to the Americas they are at least 50 million years old and highly advanced in their evolution Not all are desert plants Some are found in the

rainforest where they enjoy the heavy rainfall and grow much more vigorously than their desert cousins Many cacti are very popular with rock gardeners and houseplant ent Absolutely stunning user friendly This handsome book is ideal for both the novice cacti lover as well as the seasoned pro Tucson Citizen 2007 06 14 Documents a large selection of cacti succulents cadiforms and euphorbs This book
