qualifying offers this zany look at gardening makes Garden Madness: The Unpruned Truth about a Blooming Passion:

10 of 10 review helpful Funny yet serious By A Customer This book is so funny it should carry a warning label Do not read if you are drinking hot coffee I laughed out loud so much my cat came over and stared into my face to see what was going on Yet the book also has a serious underlying point to make about human impact on the natural world I especially liked Watkins s take on the milk hormone question You can feel her This zany look at gardening makes the perfect gift for serious gardeners who don t take themselves too seriously
