3 of 5 review helpful Excellent Book By N Martin I really enjoyed this book It was very entertaining and informative I didn't know a lot about the subject matter and it was amazing how many of the ULs I'd heard growing up and didn't know if they were true or not Good reference if you want to give proof to some of those die hard UL believers like my hubby who still insists that he saw the ghost of a little girl i Now available in paperback this book has been updated to include more humorous entertaining myths that keep the rumor mills churning Richard Roeper the current co host of Ebert Roeper and the Movies knows a lot about urban legends tales so deliciously tasty that you desperately want it to be true Find out Does the bonsai kitten Web site celebrate cruelty to animals or is it just a tasteless joke What's the real story behind the so called Ivy League
