Gardening: Save Water, Save Money, and Grow the Garden You Want:

1 of 1 review helpful A must for new home owners By Ron This book is a must for new home owners Great for any region It covers everything I live in Houston Texas We receive about 50 inches of rain per year but can go several weeks with no or very little rain However a few years ago East Texas suffered one of the worst droughts in its history Some of my well established trees and most plants died no matter how much You can have a colorful striking garden that s drought resistant too Water Smart Gardening gives you all the tools needed to create a water smart landscape and garden Drought is spreading throughout the country Even areas that previously had plentiful supplies are feeling the strain and the price of water is climbing If you have to water your garden during non drought years many of the water saving techniques from this book could still About the Author Diana Dee Maranhao has been an active member of the horticulture and landscape industry for more than 35 years She holds a degree in Ornamental Horticulture and is a credentialed teacher in California specializing in Ornamental Horticulture
