0 of 0 review helpful Slow Read to Start By Gisell375 Meh I wanted to reintroduce myself to this topic but I m absolutely plodding through the early chapters so boring I m hoping it turns into a better read once I get through the introductory background stuff otherwise it s off to the Humane Society Thrift Shop I feel like the author is trying too hard to be funny in a lot of it Guess I prefer a more subtle hum An exploration of timeless legends First told centuries ago the ancient myths of the Greeks and Romans continue to fascinate and influence the world today The expanded edition of this popular guide examines why these legends remain an integral part of human history citing their literary value and their presence throughout popular culture in such works as J K Rowling rsquo s Harry Potter novels and the Coen brothers rsquo film O Brother Where com There are scads of reasons why The Complete Idiot s Guide to Classical Mythology is a great reference text and a worthwhile addition to your home but its primary appeal lies in its accessible tone The legends of mythology are fascinating and fun
