1 of 1 review helpful Every thing you want to know about Crocuses By Paul Skarin Willey This is the only one

volume compilation of the genus Crocus that I have found It is well written indexed and full of useful data Any one who wants to discover the wealth of crocus species and how to grow them will find this book helpful 0 of 0 review helpful Excellent book by a well known expert o Winsome charming and brilliant are just three of the adjectives that crocuses typically elicit from grateful color starved gardeners Indeed few flowers can rival crocuses for the cheer they bring to the barren late winter garden and for the affection in which they are held by millions of gardeners But though they are viewed as an icon of early spring crocuses are not just one season wonders there are also dozens of striking autumn blooming species I'd opened my eyes to the richness of the genus Ruk scaron ns wrote Crocuses in language that can be understood by the everyday gardener rdquo nbsp mdash Horticulture Idquo This is the kind of gardening book th
