3 of 3 review helpful A good reference book for an Odinist By Customer This is a very good reference book for those new to Odinism and those of us who have been on this path for a long time alike So far it seems well written and fairly accurate with lots of pictures to make things more interesting You will still need to actually read and study the Eddas

and Sagas but this book gives you a good synopsis as t You may not think you know much about Norse mythology but you rsquo ve heard of Valhalla and the Valkyrie and of trolls and elves and you rsquo d certainly miss Wednesday and Thursday ndash named after Norse gods ndash if they weren rsquo t there Norse mythology is rich in adventure and ideas about creation death and the afterlife And from Wagnerian operas to Lord of the Rings to Marvel rsquo s Avengers it has had an immense influence across Western cu lsquo This magnificent book is more or less an encyclopedia hellip Beautifully illustrated rsquo Books Monthly UK About the Author Martin J Dougherty is a freelance writer and editor specializing in military
