**By Judith Gero John : Dragons I Have Known** quot;how do you describe a dragonquot; dragons are a frequent subject in the marvelous messages i receive from readers and many of them have put this question to me below his shadow floated over the glaciers snowfields and summits of the peaks basilgarrad watched the changing scene noticing

how his jagged wings seemed to twist Dragons I Have Known:

1 of 1 review helpful Useful guide to dragons and stories told and written about them By phyllisbi It is always a pleasure to encounter a book like this one which expresses a writer's passion for the topic and offers a gateway for similar enthusiasts to learn more about it Hence I am sure that many lovers of myth and fantasy will find much to value in the wealth of knowledge about dragons ancient and modern to be According to Carl Jung dragons are an archetype ingrained in our unconscious Dragons of stories however come in many forms colors and sizes Initially I wanted to understand how dragon archetypes might be synthesized as Joseph Campbell did with heroes but world of dragons is so varied that I could not really find a starting place But along the way I read hundreds of dragon stories and met many dragons I tried to postulate some theories in my introduction to About the Author Dr Judith John is a professor in the English Department at Missouri State University where she teaches children's and young adult literature Her research interests include high fantasy censorship mother's advice books and literacy She has
